XLD SERIES XLD 320

FULLY AUTOMATIC X/Y CUTTER

Superwide X/Y cutter made for non-stop production
with modular accessories system

The **XLA 320** is a high performance fully automatic cutter. With the **Fotoba** Cut Marks generated by the RIP and the true image edge tracking on both X/Y Axis, the cutting is executed with precise accuracy. (EU patent: 0 951 973 B1 - US patent: US 6,820,526 B1).

- 01 Can work with both printed and raw rolls form media converting.
- 02 Easy sheets handling with Digitrim function.
- 03 High speed version: it cuts a full 100mt roll in 6 minutes!*
- 04 It can cut all flexible material up to 1mm thickness, textile included.
- 05 It feature a new wallpaper paneling function that makes color matching and butt joints perfect.

Characteristics

Model	Max cutting width (cm/in)	Mincutting width (cm/in)	Net weight (kg)	Dimension (cm)	Shipping weight (kg)	Shipping Dimension (cm)
XLD 320	330/130	50/20	577	431x100x115h	838	465x102x144h

- Self squaring to the edge of the image (X)
- Automatic tracking of the image edge (Y)
- Max linear 35 m/min
- Vertical slices: single, 8mm double or adjustable double
- Adjustable cutting lengths and quantities for media conversion
- Memory channels to store different cut marks
- All mechanism controlled by stepper motors
- Automatic scanning of the cut marks
- Self sharpening blade system
- Accuracy: X 1mm (0,04 in) | Y 1mm (0,04 in)

**Test made with 100 mt roll 1.6 mt wide 2 mt long.*

Fotoba had developed a modular system of accessories to improve versatility and productivity of your finishing.

JRU 320 (Jumbo roll Unwinder)

Motorized jumbo rolls feeder up to 400Kg (880lbs) and 60 cm diameter (max weight and diameter may vary depending on roll width)

- Hp Latex 1500/3000 series spindle compatibility.
- Allows high production at fastest speed.

Long Banner Winder

This accessory allows winding on a core single or multiple rolls at the same time. The tensioning is microprocessor controlled and rolling is synchronized to achieve the best winding quality.

Zipper accessory

The zipper accessory enables a fully automatic workflow for cutting and applying the zip to digitally printed wide format posters. Just after cut is done the zip is applied perfectly parallel to the image.
